

## Company Description (Presentation):

**Interworks SA** (registered trademark **interworks.cloud**), are pioneers in providing the best-in-class IaaS, PaaS and SaaS. The company has a global presence, with representation in the US, UK and Germany with Headquarters in Greece.

interworks.cloud serves more than 9,000 cloud resellers through its extensive ecosystem, which includes over 70 customers (telcos, distributors, and cloud service providers) and 400+ reseller partners across 75+ countries.

The company has three main pillars: **A. Cloud Platform** (billing and provisioning automation), **B. Cloud Services** (hosted at own Data Center) and **C. Cloud Distribution** (reselling subscriptions).

1. The state-of-the-art cloud brokerage platform transforms Traditional IT Service businesses into **Cloud Solution Providers**. Addressing CSPs, MSPs and ISVs all over the world, the interworks.cloud platform aims to successfully respond to the problems and needs for automated billing, ordering, invoicing and recurring payments of Office 365, Microsoft Azure, Microsoft ESD, Acronis Cloud Backup, Google's G Suite, plus more IaaS and SaaS solutions. With more than 15 active and fully functional integrations—including leading products from major cloud vendors, the interworks.cloud platform helps businesses boost their services' portfolio and expand their cloud offerings.
2. interworks.cloud also offers its own cloud services - including **Cloud Servers**, Databases, Backup, Security, S3 Storage, DR as a Service -to the market through its partner network in Greece, Cyprus and Malta.
3. **As a leading Cloud Service Distributor and Provider** in the Greek market and abroad, interworks.cloud is counting a 400+ Cloud Service Resellers network and 14+ partnerships with software vendors like Microsoft, Acronis, Google, Webroot, Fortinet and others. Interworks SA is also a Microsoft Gold Partner and a certified provider for all its vendors providing first-class 24/7 support.

Occupying **more** than 100 employees, mainly software engineers and cloud experts, with multiyear experience in developing top business solutions, interworks.cloud continuously develops highly innovative products and services, while plans to further expand in the next years both locally and globally.
